## PRODUCT DESCRIPTION

Arrow's Liquid Presoak easily tackles stubborn soils from silver, stainless steel, pots and pans. Specifically formulated without harsh alkalies, liquid presoak is safe to use on all metals including aluminum. Just 2 oz per gallon of warm or hot water takes care of the scrubbing for both manual and machine operations.

## DIRECTIONS

See full label for complete directions. Soak dishes, utensils, pots and pans, etc. using 2 oz. per gallon of hot water. Rinse thoroughly before running through dish machines or hand wash and sanitize using normal procedures.

## PACKAGING

4/1 Gallon Case
