PRODUCT DESCRIPTION

Arrow's Delimer tackles any surface with iron, rust oxidation, hard water stains, or soap scum. Formulated to neutralize and remove lime and baked on deposits from steam tables, dishwashers, and other equipment that has been exposed to high temperature. Delimer's super concentrated power cleans and brightens aluminum, magnesium, stainless steel, copper, and chrome.

DIRECTIONS

See full label for complete directions.

General Use: Use 1 oz. to 1 gallon of hot water. Allow tough deposits to soak for a few minutes. Scrub and rinse well.

Prevent Build-up: Dilute 1 oz. to 3 gallons of water after initial deliming.

Deliming Dish Machines: Use 2 oz. of Delimer to each gallon of water in wash or rinse tank of machine. Run for 15 minutes. Drain. Follow with dishwashing detergent.

Ice Machines Cleaning: Dilute 1 - 2 oz. per gallon of water and follow machine cleaning instructions.

PACKAGING

4/1 Gallon Case

55 Gallon Drum

SPECIFICATIONS
