## PRODUCT DESCRIPTION

Arrow's Pre-Soak Powder provides heavy-duty cleaning for cookware, bakeware, dishes, utensils, silverware, and stainless steel. Just 1-2 oz per gallon of hot water easily soaks away stubborn soil without harsh alkalis. Pre-Soak Powder's formula is safe to use on all metals including aluminum. Ideal for manual washing; rinse thoroughly before placing dishes or utensils in machine.

## DIRECTIONS

See full label for complete directions.  
To loosen hard food soils from silver and stainless steelware, pre-soak in 2 oz per gallon of warm water. Rinse thoroughly before running silverware through dish machine.
