

ONE STEP REVITALIZER

PRODUCT DESCRIPTION

Arrow's One Step Revitalizer is a concentrated, cleaner and gloss enhancer, suitable for use in an autoscrubber or with a damp mop. One Step Revitalizer seals and protects rubber floors and gets exceptional results with UHS burnishers. Clean and enhance finished floors for a brilliant "wet look" shine!

DIRECTIONS

See full label for complete directions.

Automatic Scrubber: Sweep floor to remove loose dirt and debris. Dilute 4 oz. per gallon of water in scrubber tank. Use an appropriate cleaning pad, scrub and pick up solution in one pass. Allow floor to dry thoroughly. Burnish resilient tile floors if desired.

Mop On Application: Sweep floor to remove loose dirt and debris. Dilute 4 oz. per gallon of water in mop bucket. Apply a uniform coat of the solution to the floor. Allow floor to dry thoroughly. Burnish resilient tile floors if desired.
