## PRODUCT DESCRIPTION

Arrow's Armorcote is the ultimate floor finish with a 25% solid, metal crosslinked, polymer finish that produces an ultra-high-gloss wet shine. Get superior protection in high traffic areas with black mark, scuff, detergent, and water resistance. The self-leveling solution applies well with or without sealers and performs exceptionally well with spray buffing or high-speed buffing.

## DIRECTIONS

See full label for complete directions. Strip floor thoroughly before applying. If used on new tile, all factory finish must be removed. Neutralize floor and rinse with clear water. Apply a thin uniform coat of finish to floor with a new rayon mop. Allow to dry 30 minutes (longer in high humidity). For optimum results, apply 3-4 uniform coats in this manner for best results. When floor is completely dry it may be spray or high speed buffed if desired. Maintain floors by damp mopping with a daily neutral cleaner. Never pour unused finish back into the container to avoid contamination.

## PACKAGING

4/1 Gallon Case

5 Gallon Pail

55 Gallon Drum

## SPECIFICATIONS

**Physical State:** Liquid

**Color:** White

**Odor:** Mild

**pH:** 8 - 9

**Specific Gravity:** 1.0 - 1.1

## IDEAL FOR

Vinyl • Vinyl Asbestos • Asphalt Tile • Sealed Terrazzo  
Concrete • Linoleum • Composition Tile • Wood
