PRODUCT DESCRIPTION

Arrow's Outshine 25 is a technologically advanced sealer and finish designed for ultimate gloss, clarity, and durability. The optically enhanced formula is quick-drying, easy to apply, maintain, and repair. Get superior protection against scuff marks and scratches with slip resistance.

DIRECTIONS

See full label for complete directions.

Be sure the floor has been stripped, neutralized, dry and free of dust and debris. Use a new micro fiber or rayon mop. Apply very thin coats of finish. When applied correctly it will be dry in 15-20 minutes. Be sure the floor is dry before applying additional coats. For optimum results, burnish with a regular or high speed buffer. To maintain the gloss and clarity of your newly finished floor, clean floor daily with a neutral cleaner.

NOTE: High humidity, overuse of finish, and floor temperature will effect dry time.

PACKAGING

- 4/1 Gallon Case
- 5 Gallon Pail
- 55 Gallon Drum

SPECIFICATIONS

Physical State: Liquid

Color: White

Odor: Mild

pH: 7 - 9

Specific Gravity: 1.0 - 1.1
